## Databases & Directories

■ AUTOPEDIA™ - The AUTOMotive encycloPEDIA - the complete Internet source for automotive-related information, containing information related to Autos (also boats, Trucks, Minivans, Motorcycles, RVs and Sport Utilities). Includes auto manufacturer, dealer and vehicle directories, crash tests and theft reports, lemon laws. It also contains links (<http://autopedia.com/html/HotLinks.html>)--ordered alphabetically and by category—to innumerable other auto-related sites.  
<http://autopedia.com>

■ ACEEE's (American Council for an Energy-Efficient Economy) Green Book: The Environmental Guide to Cars & Trucks (online). Online database of their pathbreaking consumer guide  
<http://greencars.com>

■ Ward's Auto World. Contains several online databases (World Engines, Supplier Marketplace, Supplier Directory, Dealer Business mega100, Dealer Business 500) as well as statistics  
<http://www.wardsauto.com>

■ Auto Channel. Publishes weekly an Automotive Industry Stock Index -(AISI) containing quotes (courtesy Dow Jones) along with past performances with key numbers and ratios. The listings include weekly top performers and weekly worst performers. The

same information can be also provided on a monthly/quarter basis.

<http://www.theautochannel.com>

▣ AutoWorld Research Library. "Thousands of articles (from AutoWorld.com) at your fingertips" (both full articles and summaries)

<http://www.autoworld.com>

▣ Links2Go. Provides extensive links to all kinds of auto-related information, listed alphabetically.

<http://www.links2go.com/topic/automobiles>

▣ eAuto. A comprehensive Internet resource for automotive-related information. Categories include automakers, dealers, auto parts, wheels/tires, accessories, motorsports, news. Also provides a search engine.

<http://www.eauto.com>

▣ AutoCom Provides a SEC filing database (for auto suppliers and some auto makers)

<http://www.auto.com/edgar.htm>

## Industry Associations

▣ AAA. The official site of the American Automobile Association.

<http://www.aaa.com>

▣ CAA. The official site of the Canadian Automobile Association

<http://www.caa.ca>

▣ Society of Automotive Engineers (SAE). The premier association for the Transportation Manufacturing Industries. Technical data abounds and the site is searchable.

<http://www.sae.org>

▣ Automotive Aftermarket Industry Association (AAIA) ? formerly APAA and ASIA - is a trade association representing suppliers, distributors, retailers, program groups, manufacturers' reps, trade publications, educators and vendors in all segments of the industry.

<http://www.apaa.org>

▣ Automotive Suppliers Benchmarking Association (ASBA), an association of suppliers to automotive manufacturers, is dedicated to providing members with an opportunity to identify, document and establish best practices through benchmarking to increase value, efficiencies, and profits.

<http://asbabenchmarking.com>

▣ Association of International Automobile Manufacturers (AIAM). Members of the distribute world-class passenger cars, multipurpose passenger vehicles, and light trucks in the United States. AIAM acts as the common voice and information clearinghouse for the U.S. subsidiaries of these international automobile companies. AIAM also represents several original equipment manufacturers doing business in the United States.

<http://www.aiam.org>

▣ The Automotive Parts Rebuilders Association (APRA) is an association of over 2000 member companies that rebuild automotive related "hard" parts, such as starters,

alternators, clutches, transmissions, brakes, drive shafts, and numerous other parts for passenger cars, trucks, off-road, equipment and industrial uses.

<http://www.apra.org>

■ Automotive Service Association (ASA) advances the professionalism and excellence in the automotive repair industry through education, representation and member services.

■ Automotive Industry Action Group (AIAG). Under the auspices of AIAG, volunteers from over 1,600 member companies tackle industry issues in supply, manufacturing, engineering, quality and finance; they investigate the benefits of commonization in new areas, examine established business processes, and compare procedures to determine best practices.

<http://www.aiag.org>

■ EUCAR (European Council for Automotive R&D). Former Joint Research Committee (JRC) of the European motor vehicle manufacturers. Based on a European and global framework, EUCAR has developed a Master Plan that provides a common basis for cooperative and R&TD activities and industrial initiatives relevant to all road vehicles, combining the work of motor vehicle manufacturers, sub-system and component suppliers, tools and process equipment suppliers, material producers, industrial and academic research centers, research organizations.

<http://www.acea.be/eucarinternet>

■ The Motor and Equipment Manufacturers Association (MEMA). The Oldest American Automotive Products Manufacturers Group and the only national vehicle products association whose members are exclusively manufacturers. Under MEMA's umbrella are eleven "Councils" or "Groups" that deal with environmental issues, heavy-duty manufacturing, trucks, and other topics relating to the manufacture of automobiles and heavy equipment.

<http://www.mema.org>

■ CCFA (Comite Des Constructeurs Français D'automobiles). The French Association. Contains lot of interesting data on the auto industry.

<http://www.ccfa.fr>

■ ACEA (Association des Constructeurs Européens d' Automobiles) represents the thirteen European motor vehicle manufacturers who produce cars, trucks, buses and coaches. Through ACEA the industry expresses common views on important EU and international policy issues.

<http://www.acea.be>

■ The International Organization of Motor Vehicle Manufacturers (OICA)). The organization's membership comprises 40 national trade associations around the world, of which 20 represent the major automobile manufacturing countries in Europe, America and Asia. The organization maintains permanent committees which conduct activities in the fields of technical affairs, industrial and economic policy, and industry statistics. In addition, the Organization's Exhibition Committee coordinates international motor shows.

<http://www.oica.net>

■ American International Automobile Dealers Association (AIADA) is a not for profit trade association dedicated to the representation of America's international nameplate automobile dealer. The members of AIADA are the franchised new car and truck dealers that serve as the backbone of the auto industry.

<http://www.aiada.org>

- American Traffic Safety Services Association (ATSSA). It represents over 1,400 providers, manufacturers, consultants and public agency personnel involved in the temporary traffic control industry (including signage, pavement marking and guardrail); is dedicated to improving and promoting roadway safety.  
<http://www.atssa.com>
- Automotive Warehouse Distributors Association (AWDA) is the oldest organized group of warehouse distributors and their respective suppliers of parts, accessories tools and other supplies for the automotive aftermarket. The distributors are engaged in the distribution of passenger car and light truck parts from the manufacturer, on to the jobber, and finally to dealers and service stations.  
<http://www.awda.org>
- Japan American Automotive Group. JAAG was formed in 1988 as an advisory and executive-level industry peer group to represent a handful of US automotive parts companies present in Japan. Since then, the JAAG has grown steadily to become a highly effective advisory and executive-level industry peer group.  
<http://www.jaag.org>
- Industria Nacional de Autopartes (Mexico—in Spanish)  
<http://www.ina.com.mx/ina.html>
- Heavy Duty Distribution Association (HDDA) serves aftermarket distributors and manufacturers of parts and services for commercial, industrial and agricultural vehicles in North America.  
<http://www.aftmkt.com/associations/asia/HDDA/index.html>
- The Japan Automobile Manufacturers Association, Inc. (JAMA) is comprised of the 13 manufacturers of passenger cars, trucks, buses, and motorcycles in Japan; it has set as a goal meeting the diverse needs of the consumers, at home and abroad.
- Automotive Body Parts Association (ABPA). The Association reaches the membership and others interested in the industry through the annual convention and trade show and the mid-year seminar. It publishes the monthly publication of the industry newsletter, the Body Language. The Association's audience is diverse. Included are companies and individuals involved in the distribution of aftermarket body parts; and insurance companies and their subsidiary offices directly and indirectly involved in the collision repair process.  
<http://www.autobpa.com>
- UAW. (Former United Auto Workers, present Union for All Workers).  
<http://www.uaw.com/>
- German Automobile Industry Association (VDA ?Verband der Automobilindustrie). Contains an interesting variety of automobile related facts and figures (in German. English page to be completed within a few months).  
<http://www.vda.de>
- VDI Society for Automotive and Traffic Systems Technology (VDI-FVT). A technical division of VDI (The Association of German Engineers), the largest engineering association in Western Europe. It encompasses 3 main areas: road vehicles, railroad vehicles & technology, traffic systems technology. It focuses mainly on the organization and implementation of national and international congresses and seminars and professional presentations
